Adams Pest Control, Inc.
922 HWY 55 Suite 100 • Medina, MN 55340
Rep(s): Jacob Bebeau, Pam Miller
Positions Available: Pest Control Technician

Adam's Pest Control provides professional pest & wildlife control services to homes, businesses, & other structures to help protect people & maintain structural integrity.

Since 1971, Adam's has been a local, family-owned business committed to friendly service, effective solutions, & 100% customer satisfaction.

Each of our technicians are licensed, certified, background checked, & receives more than 60 hours of advanced training each year. Technicians are located throughout the service areas of Minnesota, western Wisconsin, northern Iowa, & the eastern Dakotas. Adam's main office is located in the Twin Cities suburb of Medina, MN, with a second office located in the Brainerd Lakes Area - Nisswa, MN.

Bachman's Inc
6010 Lyndale Ave S • Minneapolis, MN 55419
Rep(s): Nicole Hart, Danielle Massa
Positions Available: Internship - Greenhouse Production
Internship - Nursery Wholesale
Internship - Nursery Production
Internship - Landscape & Garden Services
Retail Seasonal positions

Bachman's has retail floral stores in the Twin Cities and St. Cloud, Minnesota, including floral, gift, garden centers, and retail stores. Bachman's also operates indoor and outdoor landscaping divisions, a nursery wholesale division, seven acres of greenhouses, and a 513-acre growing range near Lakeville, Minnesota, which produces many of the plants, flowers, and landscaping products sold through Bachman's locations.

Barr Engineering Company
4300 MarketPointe Drive • Minneapolis, MN 55435
Rep(s): Adri Holden, Chelsea Gibeau
Positions Available: Hiring for multiple positions. Please see our website at
www.barr.com/careers

Barr provides engineering and environmental consulting services to clients across the Midwest, throughout the Americas, and around the world. We have been employee owned since 1966 and trace our origins to the early 1900s. Working together, our 600 engineers, scientists, and technical specialists help clients develop, manage, and restore natural resources.

Barr's project teams serve the power, mining, and fuels industries, natural-resource-management organizations, and others with complex problems. Our project sites range from iron-ore mines in South America to wind-power farms in South Dakota, from manufacturing facilities in California to oil-sands fields in western Canada. In 2010, Barr Engineering Co. launched Barr Engineering and Environmental Science Canada, Ltd. with an office in Calgary, Alberta.
Bartlett Tree Experts
5558 Smetana Dr • Minnetonka, MN 55343
Rep(s): Erik Paulsen
Positions Available: Plant Health Care Specialist, Climber Trainee

Bartlett Tree Experts was founded in 1907 by Francis A. Bartlett and is the world's leading scientific tree and shrub care company. From its 100 plus offices worldwide, Bartlett helps both residential and commercial customers maintain beautiful, healthy trees. In addition, as a government contractor, we offer competitive bids and provide quality tree service with timely implementation.

Francis A. Bartlett's fundamental purpose for establishing the company that bears his name was to provide quality care and good value to owners and managers of landscape trees and shrubs by means of a basic, four-step plan:

Evaluate plant health, safety and appearance by means of a systematic and thorough inspection, or series of inspections;
Make an accurate, scientific diagnosis of plant problems and assess current and future plant requirements;
Provide a full range of necessary remedial treatments;
Design, create, and implement innovative, effective, long-term preventive care and maintenance programs.

Bartlett employees shall carry out their responsibilities with full honesty, integrity, and fairness, will strive for complete dependability, and will communicate openly with clients, prospects, employees, and the general public on matters involving our actions or intentions.

We are committed to providing scientifically based landscape management recommendations, delivering quality service, safely and at a level that meets or exceeds industry standards. We strive to achieve total client satisfaction.

Although our founder laid out his mission many years ago, we have found no reason to modify it over the decades that it has been in use. We enthusiastically support our founder's original purpose today, under the third generation of Bartlett family management.

Capitol Region Watershed District
1410 Energy Park Drive Suite 4 • Saint Paul, MN 550108
Rep(s): Bob Fossum, Forrest Kelley, Elizabeth Hosch
Positions Available: Permit Inspector - FT Temporary (5 months), Water Resource Technician - FT Temporary (4 months)

Carp Solutions
1484 Canfield Ave • Saint Paul, MN 55108
Rep(s): Jordan Wein
Positions Available: Temporary full-time field technician, Temporary part-time field technician

Lake restoration by managing invasive fish, such as the common carp. We use the latest and best science to assess the driving factors of carp populations as well as develop and facilitate sustainable management solutions.
Carpenter Nature Center  www.CarpenterNatureCenter.org
12805 St. Croix Trail South • Hastings, MN 55033
Rep(s): Mayme Johnson
Positions Available: Summer Internships available in Environmental Education, Communications, Horticulture, and Natural Resources

Carpenter St. Croix Valley Nature Center (CNC) provides a unique opportunity for you to learn and explore the outdoors. With property on both the Minnesota and Wisconsin sides of the scenic St. Croix River, we are able to preserve wildlife habitat while also providing educational opportunities. Hiking trails wind throughout the tall pines, oak savanna, restored prairies, wooded ravines, around the apple orchard, and along the river of the 425 acre main property north of Hastings, MN. Wildlife abounds in the restored prairie and wooded bluffs on the 300 acre Wisconsin nature preserve.

Carver County Environmental Services
600 E. 4th Street • Chaska, MN 55318
Rep(s): Greg Boe
Positions Available: Environmental Services

Carver County Water Management Organization
600 East Fourth Street • Chaska, MN 55318
Rep(s): Andrew Dickhart
Positions Available: Watercraft Inspector, Parks and Recreation Specialist, Environmental Specialist

Cedar Creek Ecosystem Science Reserve cedar.creek.umn.edu/about/employment
2660 Fawn Lake Drive NE • East Bethel, MN 55005
Rep(s): Troy Mielke, Kally Worm
Positions Available: Plant community ecology interns, research field supervisors, ornithology technicians, prescribed burn technicians

The Cedar Creek Ecosystem Science Reserve of the University of Minnesota has opportunities for students to work as plant community ecology interns, research field supervisors, ornithology technicians, and prescribed burn technicians. Many positions run from June through August, but some technicians will be needed as early as March and some are needed through October. As a research intern or technician, you will contribute to ongoing field experiments, have the opportunity to initiate individual research, attend scientific seminars, and interact with professors, post-docs, and graduate students. If you are an undergraduate or a newly graduated student with a background or interest in biology, ecology, environmental science, botany, environmental education, ornithology, or related field we encourage you to apply.

We have three large scale projects, along with several smaller scale experiments, that require most of our intern resources throughout the summer. BioCON is one of the large scale experiments where we explore the ways in which plant communities respond to environmental changes such as increased nitrogen deposition, increased atmospheric CO2, decreased biodiversity, altered precipitation patterns, and increased temperatures.

Another large scale project is the Big Biodiversity experiment that studies how plant diversity affects the rates, dynamics, and stability of ecological processes at the population, community,
and ecosystem levels. There are multiple experiments nested within the Big Biodiversity experiment as well, looking at factors such as irrigation and increased temperatures.

The third large scale experiment, FAB, is looking at tree competition under different diversity levels. This experiment includes approximately 40,000 trees within a 30 acre field that will run for over 100 years. Throughout the summer we maintain and sample these experiments. We also have a couple of technician positions that will involve studying woodpecker behavior, habitat use, and nesting success throughout the spring and summer season at Cedar Creek.

City of Plymouth, MN
14900 23rd Ave N  •  Plymouth, MN 55447
Rep(s): Paul Buck
Positions Available: Tree Inspector
Park Maintenance Worker - Horticulture
Park Maintenance Worker – General

Come be a part of the vibrant and diverse City of Plymouth. Our employees play a critical role in supporting and progressively enhancing the high standards of living and services Plymouth residents enjoy.

Five departments make up the City of Plymouth. The departments work together to provide basic municipal services such as parks, street maintenance, fire service, police protection, planning and development oversight, recreation programs, building inspections, recycling, street design, transit services and park maintenance.

City of Saint Paul, MN
1120 N. Hamline Ave.  •  St. Paul, MN 55108
Rep(s): Karl Mueller, Daniel Anderson, Mary Hanke-Haney
Positions Available: Urban Forestry Internship

Saint Paul Parks and Recreation: Natural Resources Section of Saint Paul Parks and Recreation maintains hundreds of thousands of trees, dozens and dozens of gardens, and an assortment of other natural areas, sanctuaries, and parkways around the city. The City of Saint Paul features nearly 200 parks and open spaces, Como Zoo, Marjorie McNeely Conservatory, 26 Recreation Centers, a 9-hole and three 18-hole golf courses, more than 100 miles of trails, indoor and outdoor aquatic facilities, and a public beach.

Clean Water Action
330 2nd Ave. S. STE #420  •  Minneapolis, MN 55401
Rep(s): Noah Lowery, Emily Tate
Positions Available: Field Canvasser and Phone Canvasser

Clean Water Action works to ensure that Minnesota has clean and safe water now and for generations to come. As the state chapter of national Clean Water Action, we organize for the fundamental policies needed to improve the quality of our water and our lives. We work in alliance to address environmental, social and economic justice issues that arise from
environmental problems. We foster active citizen leadership and organize affected communities to create political institutions that preserve and enhance our shared environmental legacy.

MN CWA was founded with the following goals in mind:
- Build the strength, cooperation and diversity of the environmental movement in Minnesota;
- Be a strong voice at the legislature and government agencies while holding them accountable;
- Elect and recruit strong environmental candidates to public office;
- Provide organizing, technical assistance, training and information to member groups.

We are one of the most effective environmental organizations in the country because of our ability to organize and mobilize our member base.

Ongoing Campaigns:
- Clean and Safe Water
- Transition to Safe and Clean Energy
- Rural Communities' Health and Environment
- Environmental Justice
- Chemical Policy Reform

Como Park Zoo & Conservatory http://www.comozooconservatory.org
1225 Estabrook Dr. • St. Paul, MN 55103
Rep(s): Shannon Broderick, Joe Loots
Positions Available: Zoo, Education and Horticulture internships

Como Park Zoo & Conservatory is a public park which is visited by over one million people each year. Como’s mission is to inspire the public to value the presences of plants and animals in their lives. (The Education Department offers a variety of programs to meet the educational needs of a diverse audience -- ages 3 and up.)

Conservation Corps Minnesota & Iowa www.conservationcorps.org
60 Plato Blvd Suit 210 • Saint Paul, MN 55107
Rep(s): Kellie Lager, Megan Zeiher
Positions Available: Field Crew Members/Leaders, Youth Outdoors Members/Leaders, Individual Placements, Field Specialists, Conservation Apprentices, I can Camp! and I Can Paddle Crew Members/Leaders, Restoring Relations Youth Corps Leaders, Summer Youth Corps Leaders, and Sup

Conservation Corps Minnesota & Iowa provides hands-on environmental stewardship and service-learning opportunities to youth and young adults while accomplishing priority and cost-effective conservation and natural resource management projects and emergency response work.
**Dodge Nature Center**  
365 Marie Avenue West • West St. Paul, MN 55118  
**Rep(s):** Teresa Root, Pete Cleary  
**Positions Available:** Year-long Fellowship

The Thomas Irvine Dodge Nature Center is an environmental education and habitat restoration organization located in West St. Paul, MN. Over the past 50+ years, Dodge has seen over one million children and their families visit our nature center and farm, each one leaving with a greater understanding and appreciation for the world around us.

**Frogtown Farm**  
941 Lafond Ave • St. Paul, MN 55104  
**Rep(s):** Shelby Rutzick, Iman Mefleh, Steph Hankerson  
**Positions Available:** Currently updating position descriptions. Be sure to talk with us!

Frogtown Farm's mission is to enrich the world by cultivating soil and community in Frogtown. Frogtown Farm is a nexus for a healthy food system in Saint Paul that fills gaps in production, storage, education, training and networking. With impacts that reach beyond its acreage and the Frogtown neighborhood, Frogtown Farm is recognized as a destination for those seeking learning, innovation, reflection, celebration and authentic community. Rooted in values of social equity, justice and inter-connectedness, this urban farm on the hill serves as a model for multi-cultural community and a catalyst for economic development, wealth creation, community pride and sustainability.

**Gerten Greenhouse**  
5500 Blaine Avenue • Inver Grove Heights, MN 55076  
**Rep(s):** Cindy Wellman  
**Positions Available:** Agriculture and Horticulture Internships  
Candidates with a strong agriculture background and interest in working with customers. Positions include seasonal and perennial sales and support, grounds maintenance, landscape project sales, nursery sales, agro

Gerten Greenhouse and Garden Center strives to provide retail and commercial sales customers with the best products and service. With the widest selection of annuals, perennial, and nursery stock in the Twin Cities, Gertens grows the majority of the goods we sell, making the entire experience unlike any other.

**Global Treks and Adventures**  
1934 Gilmore Ave • Winona, MN 55987  
**Rep(s):** Kyle Herdina  
**Positions Available:** International Research Intern

Global Treks and Adventures is an international travel company that also leads research expeditions to remote locations in order to publish field guides and cultural guides to those regions.
Join us as we enhance the health, safety and quality of life to Hennepin County communities.

Hennepin County is a progressive public sector entity that employs more than 8,500 talented, diverse individuals at more than 100 sites. Headquarters and many services are located in downtown Minneapolis – easily accessible by bus and light rail. Our 30 departments provide a broad array of services to over 1.2 million residents which lends itself to offer numerous career opportunities few employers can match.

What attracts applicants to choose Hennepin County?
- Opportunity to grow professionally
- Benefits package, retirement, paid time off (PTO), holidays, etc.
- Stability or job security
- Interesting work
- Opportunity to work and give back to the community
- Hennepin County's reputation for being a respected employer
- Life/work balance
- Diverse workforce and client population

Hennepin County has an atmosphere that promotes dedication and commitment to public service. We offer stability, work life balance and impressive benefits that include: comprehensive health and wellness package, employee discounts, retirement preparation and saving plans, various insurance protection, family benefits, tuition reimbursement, and more.

Come join us! To view our job opportunities, visit www.hennepin.jobs.
Your future. Made here.

Higher Education Consortium for Urban Affairs (HECUA) www.hecua.org
2233 University Ave. W, Suite 210 • St. Paul, MN 55114
Rep(s): Raegan Jaeger
Positions Available: Not currently hiring. We offer internships in connection to our off-campus study programs

Founded in 1971, HECUA is an independent, non-profit organization that designs and delivers off-campus-study programs for college students. These programs are based both in the United States and overseas. They are experiential and cross-disciplinary in nature, and each is focused on a set of pressing social justice issues. HECUA is governed by 15 member colleges and universities.

Metropolitan Council  
390 Robert St. N. • St. Paul, MN 55101  
**Rep(s):** Brenda McCoy, Luis Martinez  
**Positions Available:** TBD

The Metropolitan Council is the regional planning organization for the seven-county Twin Cities area. It runs the regional bus and light rail systems, collects and treats wastewater, manages regional water resources, plans regional parks, and administers funds that provide housing opportunities for low- and moderate-income individuals and families.

Metropolitan Mosquito Control District  
1260 bunker lake blvd NW • Andover, MN 55304  
**Rep(s):** Dave Dirkswager, Kathy Beadle  
**Positions Available:** Inspector

The Metropolitan Mosquito Control District (MMCD) provides a variety of services to 2.7 million people living in an area covering 2,800 square miles in the seven county Minneapolis and St. Paul, Minnesota metropolitan area. Counties included in the District are Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, and Washington.
Minneapolis Park & Recreation Board

The Minneapolis Park and Recreation Board is one of the premier park systems in the United States. Its picturesque lakes, neighborhood parks, recreation centers and diversified programming have made the park system an important component of what makes Minneapolis a great place to live, work and play.

Minnesota Department of Natural Resources

The DNR's Division of Ecological and Water Resources hires seasonal staff each boating season to assist the watercraft inspection program. Stop by to learn more!

Minnesota Environmental Health Association

The Minnesota Environmental Health Association (MEHA™) is an organization of public health professionals in government and industry working to improve the living and working conditions in homes, businesses, and the protection of the environment.

Minnesota GreenCorps - MPCA

Minnesota GreenCorps is a statewide AmeriCorps program coordinated by the Minnesota Pollution Control Agency. The mission of MN GreenCorps is to preserve and protect Minnesota's environment while training a new generation of environmental professionals.

MN GreenCorps places AmeriCorps members with local governments, non-profits, and educational institutions statewide to carry out service projects on focused environmental topics. MN GreenCorps service lasts for approximately 11 months, beginning in September. For the 2018-2019 program year, up to 42 members serve in positions in the areas of:

- Air Pollutant Reduction
- Green Infrastructure Improvements- urban forestry & stormwater management
- Waste Reduction and Organics Management
- Community Readiness and Outreach

MN GreenCorps members gain valuable skills and experience in the environmental field and get an opportunity to give back to communities in Minnesota. Along with a living allowance,
members have the offer of health insurance, loan forbearance, and upon completion, MN GreenCorps members receive an education award that can be used for further education or to pay off qualified student loans.

The anticipated program start date is September 12, 2018 and the anticipated end date is August 13, 2019.
Member application materials are anticipated to be posted in April on the Minnesota GreenCorps website: http://www.pca.state.mn.us/mngreencorps

Operation of the 2018-2019 program year is dependent on funding.

**Minnesota Native Landscapes Inc.**
8740 77th St • Otsego, MN 55330
*Rep(s):* Bill Johnson
*Positions Available:* TBD

Full line of native ecosystem restoration and land management services. We combine construction, ecology, farming and landscaping into one. We offer customers a unique package of services in the world of restoration ecology.

**Minnesota Pollution Control Agency**
520 Lafayette Road N • St. Paul, MN
*Rep(s):* Suzette Henry
*Positions Available:* We will be hiring for our field summer staff

The Minnesota Pollution Control Agency (MPCA) was established in 1967. We protect Minnesota's environment through monitoring environmental quality and enforcing environmental regulations. The mission of the MPCA is to work with Minnesotans to protect, conserve, and improve our environment and enhance our quality of life. Our staff and environmental partners use a variety of voluntary and regulatory prevention, management, and clean-up strategies to protect Minnesota's environment and help keep our state's air, water and land clean. The MPCA serves Minnesota by: examining the quality of the state's environment; developing rules that protect the public's health and the environment; and helping local government, industry and individuals meet their environmental responsibilities. For more information about the MPCA go to www.pca.state.mn.us

We work to protect and improve our environment and enhance human health.

The Minnesota Pollution Control Agency monitors environmental quality, offers technical and financial assistance and enforces environmental regulations. The MPCA finds and cleans up spills or leaks that can affect our health and environment. Staff develop statewide policy, and support environmental education. The MPCA works with many partners — citizens, communities, businesses, all levels of government, environmental groups, and educators — to prevent pollution, conserve resources, and to help ensure pollution does not have a disproportionate impact on any group of people.
Minnesota Sea Grant

31 West College Street • Duluth, MN 55812
Rep(s): Marte Kitson
Positions Available: Aquatic Invasive Species Undergraduate Internships

With nearly 12,000 lakes and a coast on the world's largest body of fresh water, Minnesota possesses a bounty of aquatic and coastal resources. Through scientific research and public education programs, Minnesota Sea Grant works to enhance Minnesota's coastal environment and economy.

Minnesota Technical Assistance Program (MnTAP)

200 Oak Street SE, Suite 350-1 McNamara Alumni Center • Minneapolis, MN
Rep(s): Nathan Landwehr, Matt Domski
Positions Available: 2018 MnTAP Summer Intern Program (up to 15 positions available)

The Minnesota Technical Assistance Program (MnTAP) is an outreach program at the University of Minnesota that helps Minnesota businesses develop and implement industry-tailored solutions that maximize resource efficiency, prevent pollution and reduce costs and energy use.

MnTAP provides free technical assistance tailored to your business. By reducing waste and increasing efficiency you can save on disposal and raw material costs, and decrease regulatory compliance burdens. You also will create healthier and safer working conditions for your employees.

Established in 1984, MnTAP is funded by a grant from the Minnesota Pollution Control Agency to the University of Minnesota School of Public Health, Division of Environmental Health Sciences.

MN DNR - Forestry

1201 East Hwy. 2 • Grand Rapids, MN 55744
Rep(s): Katie Gray, Ryan Brubaker
Positions Available: Natural Resource Forest Technicians
   Natural Resource Forest Specialists
   Natural Resource Forestry Interns

The Minnesota Department of Natural Resources, Division of Forestry is an integrated public forest resource management agency. We manage complex forest ecosystems to benefit society. We manage, protect, develop and utilize forest resources on over five million acres of state forestland in Minnesota. We assist small non-industrial woodland owners with the stewardship of their forestlands. We protect Minnesota from the threat of wildfires.

Major programs include: State Land Management; Forest Protection (pest management, fire management and suppression, and environmental protection) Cooperative Forest Management; and Resource Information and Analysis. The Division operates state tree nurseries with annual production of up to 10 million seedlings.

Three Rivers Park District

Lowry Nature Center 7025 Victoria Dr • Victoria, MN 55386
Rep(s): Brett Sieberer, Allie Gams
Positions Available: Summer Environmental Education Intern

Three Rivers Park District is a natural resources-based park system located in the suburban Minneapolis/St. Paul metro area of Minnesota that manages nearly 27,000 acres of park reserves, regional parks, regional trails and special-use facilities.

The Park District offers facilities for every season, including: picnicking, swimming, creative play, boating, fishing, downhill skiing, snowboarding, golf, camping and sledding; extensive trails for hiking, biking, in-line skating, horseback riding, cross-country skiing and snowshoeing, as well as program sites for nature, recreation, historic and farm education.

The Park District's unique "80/20" policy insures the protection of natural resources by specifying that only 20 percent of park reserves may be developed for active use, while 80 percent of the parkland must be preserved or restored to a natural state. Annually, the Park District serves seven million park visitors.

Tree Trust

2231 Edgewood Ave. S. • St. Louis Park, MN 55426
Rep(s): Jessica Neau, Brent Eikenhorst
Positions Available: Summer Crew Leader
Summer Counselor

An agency dedicated to employment training and conservation.

U.S. Compliance is an environmental, health and safety firm with nearly 30 years of experience in the areas of worker safety (OSHA) and environmental (EPA) compliance with clients throughout the United States and Canada. As experts in the area of local, state, and federal OSHA and EPA regulations, our customers receive high quality compliance services allowing them to focus on profitable growth and productivity.

WE PARTNER WITH CLIENTS:
Our Environmental, Health & Safety Advisors, and Environmental Specialists work in partnership with our clients to create and develop customized, site-specific compliance solutions.
USDA Forest Service
http://www.fs.fed.us/
1992 Folwell Ave. • St. Paul, MN 55108
Rep(s): Teri Heyer
Positions Available: Not currently hiring

The U.S. Department of Agriculture Forest Service is a Federal agency that manages public lands in national forests and grasslands. The Forest Service is also the largest forestry research organization in the world, and provides technical and financial assistance to state and private forestry agencies.

The job of Forest Service managers is to help people share and enjoy the forest, while conserving the environment for generations yet to come. The Forest Service motto, "Caring for the Land and Serving People," captures the spirit of our mission, which we accomplish through five main activities:
• Protection and management of natural resources on National Forest System lands.
• Research on all aspects of forestry, rangeland management, and forest resource utilization.
• Community assistance and cooperation with State and local governments, forest industries, and private landowners to help protect and manage non-Federal forest and associated range and watershed lands to improve conditions in rural areas.
• Achieving and supporting an effective workforce that reflects the full range of diversity of the American people.
• International assistance in formulating policy and coordinating U.S. support for the protection and sound management of the world's forest resources.

Vieau Associates Inc
www.vieauassociates.com
4570 West 77th Street Suite 265 • Edina, MN 55435
Rep(s): Bridget Bobick, Megan Lamb
